

How to Apply for the San Hsiung Electrothermal Scholarship

1. Origin:

San Hsiung Electrothermal specially provided \$300,000 to establish this scholarship fund to award outstanding students and proper activities at National Sun Yat-sen University's Department of Marine Biotechnology and Resources.

2. Intended Recipients:

- (1) Those who perform well in promoting academic activities;
- (2) Activities beneficial to the development of the Department of Marine Biotechnology and Resources;
- (3) Excellent performers in independent studies related to marine science

3. **Application Qualifications:** Individual students or groups belonging to the Department of Marine Biotechnology and Resources.

4. **Application process:**

Prospective applicants should prepare the following:

- (1) Application form;
- (2) Results of activity or independent study;

5. **Application Date:**

Apply before the posted date within the first month of each school year (late October). The specific deadline will be announced separately.

6. **Application Review Method:**

The Department's Academic Committee will perform a review and determine the scholarship amount.

7. The above will be implemented starting in the academic year of 1997.
